

Curiosity

Nao

Touch me when you feel that ember light
Candle wax dripping 'til we're colour blind
Finger tips to trace my lips
Tension to the moment gives
Come and take it all
Come and take, it's all for you, you
Baby, have it all
Come and take this all for you, you
I'm here to satisfy
Fulfill your, fulfill your curiosity
I'm here to satisfy
Fulfill your, fulfill your curiosity
Bite your appetite
Fulfill your, fulfill your curiosity
Request your deep desire
Fulfill your, fulfill your curiosity
You take me to the edge
I submit to you how it feels when your
My body's here, express yourself
Fingertips to trace my lips
Tension to the moment gives
Feel my waterfall
Come and take, it's all for you, you
I'm here to satisfy
Fulfill your, fulfill your curiosity
I'm here to satisfy
Fulfill your, fulfill your curiosity
Bite your appetite
Fulfill your, fulfill your curiosity
Request your deep desire
Fulfill your, fulfill your curiosity
Baby, take all of me
I'm open for your desire, curiosity
I'm here to satisfy
Fulfill your, fulfill your curiosity
I'm here to satisfy
Fulfill your, fulfill your curiosity
Request your deep desire
Fulfill your, fulfill your curiosity
