

Your Biggest Mistake

New Found Glory

What do you think inside your head (I wanna know)
So you think that this could end up (breaking you)Your life is a timebomb set to explode
You talk out your ass and everyone knows
For once you should listen or care what I think
Or I'll be gone before you can blinkEveryone's told you over and over again
You're making the biggest mistake of your life
Everyone's told you
Everyone you left behind
You're making the biggest mistake of your life
Everyone knows that you're afraid of (missing out)
And I know that its hard for you to (swallow down)
A world you created set to explode
You lie through your teeth and everyone knows
For once you should take what I'm willing to give
Or you'll stay stuck in the web that you're trapped inEveryone's told you over and over again
You're making the biggest mistake of your life
Everyone's told you
Everyone you left behind
You're making the biggest mistake of your lifeIt's a chance (what a chance)
you should take (you take)
And I know it's not an easy one to make
You should trust the ones that are closest to you
Everyone's told you over and over again
You're making the biggest mistake of your life
Everyone's told you
Everyone you left behind
You're making the biggest mistake of your lifeYou've made the biggest mistake of your life
