

# Underneath It All

## Pillar

I can see you stepping to me just by the look in your eyes  
You think that I can't be who I am if I don't live out your life  
But that's alright'Cause I know who I am underneath it all  
And I'm gonna be who I am through it all I can see you talking to me, but I can't hear what you  
say  
And all the words coming outta your mouth have got me moving away  
But that's okay  
But I won't walk away from the Place that I need to stay  
I don't wanna be like you, I don't wanna be like me  
I wanna be like I Am  
The One that made me, me
