[Lil Wayne:]

Yellow pill, purple drank, a nigga geeked, mane
Yellow pill, purple drank, a nigga geeked, mane
Yellow pillGang gang, Rose Gold, Richard Mill', nigga, plain jane
Two twin blickers, lil' nigga, ying-yang
Strong, strong weed, lil' nigga, Ving Rhames
Big crown on lil' nigga, Bing James
Bust down glowin, nigga, Bing James
Bust down froze, take picture, freeze frame
Niggas on they death bed, they need they sheets changed
Yeah, big game
Okay, red team, lit up like a light beam
Sipping ice cream
Dripping like some Visine
Since Spike Lee
I've been doing the right thing
Take my dirty money, and teach 'em about hygiene
That banana blip
Aiming at a rapper lip
'Cause he cap and cap
We call 'em Colin Kapernick
This ain't no rapping shit
We wrap your ass and wrap it quick
I don't be acting lit
I'm on too much Actavis
I'm repping Blood gang
Put some Molly on her motherfucking tongue ring
Birkin bag for baby, that was chump change
Red carpet on the concrete, that's a blood stain
Yeah, drove off screaming, "Gang gang"
Gang gang, Rose Gold, Richard Mill', nigga, plain jane
Two twin blickers, lil' nigga, ying-yang
Strong, strong weed, nigga, Ving Rhames
Big crown on lil' nigga, Bing James
Bust down glowin, nigga, Bing James
Bust down froze, take picture, freeze frame
Niggas on they death bed, they need they sheets changed
Yeah, big game[Jay Rock & Lil Wayne:]
Eastside!
Motion picture shit
At you with my .40 Glock
When I'm on my savage shit

Bodies on that black top
Weapons in the stash box
Keep a couple lamb chops
All we serve is hearses, you don't get no ambulance ride
All we know is big B's, yeah, you know, that's gang, gang
This ain't what you want, you don't wanna lose your brain, brain
Been focused on this bag now, yeah, we from the projects (Yeah)
We got that PTSD like some Vietnam vets
Miss me with that bullshit, I'm just tryna make a plate
While Lamborghini truck, bitches call it yola-yay
Choppers raised ablaze, Smith N Wesson in my breakaway
Peep the different shit from behind these Aviator shades[Lil Wayne:]
