

My Time Alone

Home Grown

Time away
I thought this through
I'm full of stress
I'm outside of you. I've been thinking,
will she leave me? Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen... My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen...
Apart from me
torn from the floor
honestly, I can't give you more. I've been breathing
since you left me. Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen... My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen
I won't listen to you
I'm not leaving
with you
I won't listen Time away
you've lost all control
and I'm in need
of this time alone and I've been breathing
since you left me. Chorus: My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen... My time alone
and you are here waiting
for me to break
but I am not changing
I won't listen
I'm not leaving

I won't listen to you.
