

Take Me There

Jackie Evancho

Take Me There
written and composed by Johan Oberholzer
When the days seem darker
And the nights more cold,
All the fear is broken
When there's you to hold. Never doubt or question
What I feel for you.
You will not be certain
I will follow through.
Take me there.
Take me there with you.
I don't know where
But I'll follow too. So take me there.
Take me there with you. With the road wide open,
And the daybreak near,
I could never fathom
Life without you here. Take me there.
Take me there with you.
I don't know where
But I'll follow too. So take me there.
Take me there with you.
I will see you through
Everything you do.
Take me there.
Take me there with you.
