

Real Love

Skyy

Don't be afraid of the way u feel
It's real love Boy
Don't be afraid of the way u feel
It's real love I know it's not the first time
That you ever felt this way before
Ooh, but those memories are still lasting
Of the pain you got for your trusting
So when love calls u walk out the door oh,
But this time, boy Don't be afraid of the way you feel don't be afraid
Open your heart and you'll see it's real oh it's real love
It's real love
Don't be afraid of the way you feel
Oh don't be afraid now baby
It's real love
I'm not the one who hurt you, boy
And with love there's no real guarantee
If you believe in what you're feelin'
And you wanna make love to me, oh, baby Don't be afraid of the way you feel Yeah, baby
Open your heart and you'll see it's real
It's real love it's time to do it right
Don't be afraid of the way you feel
Oh I need you tonight I need you right now
It's real love Oh now what you got to say baby Darlin u know it's hard for me sometimes 2 put
My feelings into words
And I know because of all the hurt in my past
I tend to shy away from emotional commitments
But what I feel for you is so real and so strong
I couldnt walk away even if I wanted to
So baby I'm yours
Don't be afraid of the way you feel oh, yeah yeah, baby
Open your heart and you'll see it's real oh it's real love
It's real love
Don't be afraid of the way u feel I'm not the one who hurt u
It's real love Give your love to me Don't be afraid of the way you feel Baby
Open your heart and you'll see it's real Yeah baby
It's real love Real real love
Don't be afraid of the way you feel oh I need you tonight I need you right now
It's real love, Come on baby come on baby give your
Love 2 me baby I need u by my side, boy
