

# Let There Be Country

Laine Hardy

Long as there's an old truck  
With a boat hitched up  
Backin' down a ramp at the lake  
Long as there's a back road  
Fields of gold  
And a John Deere rollin' all day  
Long as there's cold beer sittin' in a cooler  
And a Friday night in my future  
Long as there's a band and a bar  
With a tip jar ready to play  
Let there be country  
Boots kickin' up dust  
Let there be neon light and a sky full of stars above  
Let there be mud tires, bonfires  
And hometown girls and shotgun seats  
Let there be country  
For country boys like me  
Long as there's haystacks  
And Bass Pro caps  
And a Redman ring on your jeans  
Long as there's a heel, a toe, a do-si-do  
Cuttin' loose with your honky tonk queen  
Long as there's trailers in the trailer parks  
And songs about broken hearts  
Long as there's a barrel of whiskey  
Down in Lynchburg, Tennessee  
Let there be country  
Boots kickin' up dust  
Let there be neon light and a sky full of stars above  
Let there be mud tires, bonfires  
And hometown girls and shotgun seats  
Let there be country  
For country boys like me  
Long as there's good ole boys goin' fishin'  
Let there be country  
Long as there's apple pie sittin' in the kitchen  
Let there be country  
Long as there's a dog in a pickup bed  
And all of God's people said  
Let there be country  
Boots kickin' up dust  
Let there be neon light and a sky full of stars above  
Let there be mud tires, bonfires  
And hometown girls and shotgun seats  
Let there be country  
For country boys like me  
Let there be country  
For country boys like me
