

# Car Crash

## Three Days Grace

I came along for the ride.  
You're wicked with the clutch.  
Happened so fast and  
It hurt so much.  
You're a car crash  
And i can't look away.  
I should've known by now.  
I'm still not afraid.  
I'll do it to myself though  
It's what I never what I say.  
You're a car crash  
And i can't look away.  
All I see is  
Shattered glass and  
Red lights passing  
My life flashing.  
Heading for the same disaster.  
Faster and  
Faster and  
Faster.  
I couldn't stop at the red light.  
Stop at the red light.  
I couldn't stop at the red light.  
You're a car crash  
And I can't look away.  
I came along for the ride.  
You're wicked with the clutch.  
Happened so fast and  
It hurt so much.  
You're a car crash  
And i can't look away.  
And all I see is  
Shattered glass and  
Red lights passing  
My life flashing.  
Heading for the same disaster  
Faster and  
Faster and  
Faster.  
I couldn't stop at the red light.  
The red light.  
Stop at the red light.

I couldn't stop at the red light.  
You're just like a car crash  
And i can't look away.  
From the headlights  
The red lights.  
Stop at the red light.  
I couldn't stop at the red light.  
You're just like a car crash  
And i can't look away.  
(let's go for a ride)  
And all I see is  
Shattered glass and  
Red lights passing.  
(let's go for a ride)  
Heading for the same disaster.  
Faster and  
Faster and  
Faster.  
I couldn't stop at the red light.  
The red light.  
Stop at the red light.  
I couldn't stop at the red light.  
You're just like a car crash  
And i can't look away.  
From the headlights  
The red lights.  
Stop at the red light.  
I couldn't stop at the red light.  
You're just like a car crash.  
Like a car crash and  
I can't look away.
