

# Make War (feat. Flame)

## Tedashii

I hear so many Christians, murmuring about their imperfections,  
and their failures, and their addiction, and their shortcomings.

And I see so little war! Murmur, murmur, murmur.

Why am I this way? Make War! Bang with me

ba-bang bang, ba-bang with me

No more playing games mane

cause this thang can get risky

So mane if you in Christ

TAKE UP!/your cross quickly

Stand fearless on the frontline

time to come with it

Do the right thing

WAKE UP!

and lets get it

I ain't even in the ring

they throwing bows like Riddick

Persistently attacking me

they're even in the back of me

It's either fight or loose my life and I can't take this passively

So what you think I'm bout to do

I'm bout to do what I can do

Trust the ONE who got me through

and fight like it was after school

Never giving up

steady, standing on the battle field

Feet firm to the ground like I stepped on Chappel Hill

Flesh feeling frisky, sin persuades and tempts me

Satan cheers me on

guilt followed by conviction

It's the same ol' trap

and we fall like we defenseless

Work your senses, grow in wisdom

stand firm and be relentless

I make war!

Cause sin never sleeps

It's got me in a trance

you can see it in my dreams

I make war!

Man I beat my flesh

To the death/every breath/like I beat my chest/

I make war!

sun up

I make war!  
sun down  
I make war!  
time in  
I make war!  
time out  
I make war!  
against lust  
Against pride, against me, until I die  
Do you even have a clue  
What happened to you when He died  
When that tomb got rolled when He rose in the sky  
I think we emphasis sin so much  
That it makes us paralyzed  
And glorify struggle so much  
That it makes us terrified  
And deemphasize the fact that we have been sterilized from our own lives and thus  
We gotta snap out of it  
We ain't in no straight-jacket  
We free  
When Jesus died in our lives something strange happened  
He gave us power  
Yeah I know that we sinners but since He rose He's renewing the image of God in us  
Now, we gotta start making war  
Now we can start saying no  
To them fleshy impulses that Jesus Christ is paying for  
Now we can start taking the lead  
Just like the Dalai Lama and start going all out like a suicide bomber  
Whatever the sin is we gotta go go go harder  
By His grace no time to waste and just just just like there's no tomorrow I make war!  
Cause sin never sleeps  
It's got me in a trance  
you can see it in my dreams  
I make war!  
Man I beat my flesh  
To the death, every breath, like I beat my chest  
I make war!  
sun up  
I make war!  
sun down  
I make war!  
time in  
I make war!  
time out  
I make war!  
against lust  
Against pride, against me, until I die I'm a Christ representer, fin to stand and deliver  
Cause a lot of my believers struggle with their agenda  
So I dropped this on an ADAT

just so you could come play back/  
A hit to be encouraged that rocks you with truth from, way back  
So listen up to it ASAP  
like you do a Lecrae track  
I'm spittin' written visions to put on heads like a wave cap  
Sinning, nawl we don't play that  
cause that's the way that a slave acts  
I'm filled with the Spirit so tell them dog this is pay back  
As you begin to copy the carbon copies of Christ  
And conform to His written image you should be shinning a light  
If you not, why is that?  
Is it fear that's been grippin' you  
cause you scared they'll be dissin' you  
Flipping birds while that spit at you  
If you not, why is that?  
it don't matter so bump it  
perfect love cast out fear and He ain't save us for nothing  
his is a privilege (privilege)  
your life to give to Him (give to Him)  
so stand firm for Him dawg and lets get it inI make war!  
Cause sin never sleeps  
It's got me in a trance  
you can see it in my dreams  
I make war!  
Man I beat my flesh  
To the death/every breath/like I beat my chest/  
I make war!  
sun up  
I make war!  
sun down  
I make war!  
time in  
I make war!  
time out  
I make war!  
against lust  
Against pride, against me, until I dieI make war...
