

# Sick of You

## Selena Gomez & The Scene

You know fairytales don't come true  
Not when it comes to you  
Open up for the first time  
And you can bet that it's the last time  
And I'm cool with laying low  
Saturday night, and I'm staying home  
I'm feeling good for the first time  
It's been a while since the last time  
I'll wave goodbye when you say hello  
W-W-oah  
I'm sick of the sleepless never ending nights  
I just don't care who was wrong or right  
I'm sick of the rumors and the alibis  
You tear me up  
I'll cut you down to size  
So sick of you  
So sick of you  
Sick of all of your little lies  
So sick of you  
So sick of you  
Sick of all the girls by your side  
What you don't know  
Is how great it feels to let you go  
I cracked your game, it's so see through  
You know I'm way too good for you  
Moving on to the next time  
Drop the baggage and I'll be fine  
When it's time to reminisce  
You're gonna realize you miss this  
You're on my mind for the last time  
And at the most, you were a past time  
I'll wave goodbye when you say hello  
W-W-oah  
I'm sick of the sleepless never ending nights  
I just don't care who was wrong or right  
I'm sick of the rumors and the alibis  
You tear me up  
I'll cut you down to size  
So sick of you  
So sick of you  
Sick of all of your little lies  
So sick of you  
So sick of you  
Sick of feeling bad by your side  
What you don't know  
Is how great it feels to let you go  
I'm happier alone  
Taking down your pictures

And I'll throw those memories out the door  
I'm sick of you  
So sick of you  
Sick of all of your little lies I'm sick of the sleepless never ending nights  
I just don't care who was wrong or right  
I'm sick of the rumors and the alibis  
You tear me up  
I'll cut you down to size  
So sick of you  
So sick of you Sick of all of your little lies  
So sick of you  
So sick of you  
So I'm getting on with my life  
So sick of you  
So sick of you  
So sick of you  
Oh woah  
So sick of you  
So sick of you  
So sick of you  
Oh woah  
What you don't know  
Is how great it feels  
To let you go
