

Public Pervert

Interpol

If time is my vessel
Then learning to love might be my way back to sea
The flying, the metal, the turning above
These are just ways to be seen
We all get paid
Yeah some get faith before they die
Then through stars we will navigate
Through the holes in your eyes How many days will it take to land
How many ways to reach abandon
Abandon
Oh, so swoon, baby, starry nights
May our bodies remain
You move with me, I'll treat you right, baby
May our bodies remain There is love to be made
So just stay here for this while
Perhaps heartstrings resuscitate
The fading sounds of your life How many days will it take to land
How many ways to reach abandon
Oh, abandon
So swoon, baby, starry nights
May our bodies remain
As deep we move I'll feed you light, baby
May our bodies remain
Oh yeah, in history I'll treat you right, baby
I'm honest that way, hey Swoon, baby, starry nights
May our bodies remain
