## Sauti Sol

I look at you  
The rising sun i see  
And every way behold the beauty you bear  
So i wrote this, this ones for you  
For your velvet skin  
Your scarlet voice filling every single void  
So I (I) lllll  
I wrote you this sweet confessional melody  
Sooo  
LADY would you be my BABY  
Maybe we can party through this lifetime  
All day all night  
WOMAN let me be your one and only MAN  
Maybe we can party till this song is dead 365  
Dreaming of you right here next to me  
Me showing you how much you mean to me  
I move closer feeling your cherry lips your body language proving you need me too  
And so i llll  
I need this lasting ecstasy in my lifeLADY would you be my BABY  
Maybe we can party through this lifetime  
All day all night  
WOMAN let me be your one and only MAN  
Maybe we can party till this song is dead 365  
Because I  
I wrote you this sweet confessional melody  
So
