

I Don't Wanna Kiss You Goodnight

LFO

I can't believe the night is gone,
Now its time to take you home.
Girl, as you come in close to give me one last kiss
You're making it hard to be so me,
Don't want to leave you like this no, Cause...I don't want to kiss you good-night,
If a kiss means this night is over
I don't want to have to say good bye no, no, no
Girl, don't leave me standing at your door.
When this night could lead to so much more...
I wanna hold you (hold you)
I wanna touch you(touch you)
Don't want to kiss you,
Don't want to kiss you goodnight,I used to see you in my dreams,
(Hoping one day they'd come true)And then you gave
yourself to me, But now we're standing here and
I'm holding you, And this never felt so right.
Don't want to leave you here, Can I come inside, And
kiss you where you like????
Baby feeling your skin on my skin,
I'd take my time to make you breathless
Girl, we can do it again and again...
