

Nowadays (feat. Landon Cube)

Lil Skies

[Intro: Lil Skies]

CashMoneyAP

Aye, aye, aye [Chorus: Lil Skies & Landon Cube]

Nowadays I'm too cool for a girlfriend

Nowadays I don't know when the world spins

Live your life like we die when the world ends

So it's alright every time we fuckin' break a sin

Nowadays shit's not the same

Life switch lanes, now these hoes act strange

And I lost my grip on the world in bliss

It's so, it's so

[Verse 1: Lil Skies]

Aye, it's so lonely on the east side

I don't give a fuck, I keep it real I'm not gon' let it slide

Now she see me up, she let me fuck

Want me to come inside?

Broski going dumb, hopped in the car, he said he down to ride

You a little pup, stop playing tough, ain't make no sacrifice

Yeah, smokin' cookie for my appetite

I don't trust nobody, people talking and be telling lies

We just wanna win and shock them all and catch 'em by surprise

I was saucin' down until we up and then we all rise, yeah

But niggas don't stick to the G-code, balling on my haters

I think that I'm stuck in beast mode

Make it through the foul run to the line and make the free throw

I think that I'm D. Rose, do 'em like I'm D-Bo

[Bridge: Lil Skies]

Aye, but I like to fade away

I got these diamonds on me, and these bitches all in my face

And you wanna be a star, and you wanna win the race

But you cannot rock with me 'cause I was caught on the chase [Chorus: Lil Skies & Landon Cube]

Nowadays I'm too cool for a girlfriend

Nowadays I don't know when the world spins

Live your life like we die when the world ends

So it's alright every time we fuckin' break a sin

Nowadays shit's not the same

Life switch lanes, now these hoes act strange

And I lost my grip on the world in bliss

It's so, it's so [Verse 2: Landon Cube]

I think it's so damn strange what these people be saying

I can never even listen to a word that they say

I'm on the west side, that's the best side
By the cliff smoking blicks, that's the best high
And I got a shawty with the best thighs
Talking shit girl, why you putting up a fight?
I'm in my own world, far from the satellites
They want my information, they get no conversation
'Cause nowadays everybody calling
I need a manager 'cause I can't really fuck with nobody (I can't really fuck with nobody,
so)[Bridge: Lil Skies]
Aye, but I like to fade away
I got these diamonds on me, and these bitches all in my face
And you wanna be a star, and you wanna win the race
But you cannot rock with me 'cause I was caught on the chase[Chorus: Lil Skies]
Nowadays I'm too cool for a girlfriend
Nowadays I don't know when the world spins
Live your life like we die when the world ends
So it's alright every time we fuckin' break a sin
