

Raindrops (feat. Kerli)

SNBRN

Like raindrops from the desert sky
For you I'll be waiting
Like seeing stars and endless nights
For you I'll be waiting
It's like I can breathe
Finally
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together
Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together
Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together
Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
Like raindrops from the desert sky
For you I'll be waiting
With your touch I come alive
For you I'll be waiting
It's like I can breathe
Finally
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together

Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together
Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
Won't you take me over?
Come a little bit closer
A little bit closer
And wake up together
Bring me up from the under
A little bit closer
A little bit closer
Can we stay at this forever?
