

I Got Time

Bobby Tinsley

I know you might not be ready yet
But I just want you to know I got time
I just wanted you to know that You see me through through thick and thin
Cause everyday with you is like im born again
But we're only friends you know that I see you as so much more
You took me to another world never wanna come back again
Need you to be my girl to hold me close
Thats the reason why it hurts so bad to see you go
I got time
If my time is spent waiting on you
Then I got time
And I'm never going anywhere
As long as you love me
Then I got time
And now I be waiting on you
Then I got time
And I'm never going anywhere I try my best to understand
What could be the reason you wouldn't want me to be your man
Cause I treat you right I hold your hand
I kiss every single tear drop they fall down
But your so confused you wonder if i am the one
And yeah I wonder too nothin to do
But sit here alone till I find out
But I got time
If my time is spent waiting on you
Then I got time
And I'm never going anywhere
Just say that you love me
Then I got time
And now I be waiting on you
Then I got time
And I'm never going anywhere Just say that you love me
That you can't live without me
That you wanna go and get married
Thats all I wanna hear
I don't care about your past
The way I see its clear like glass
So far away and you can't go back
Cause everything changed the day I came here I got time
I got time
Then I will be waiting on you
I got time

And I'm never going anywhere
And I will be waiting on you And I'm never going anywhere
