

Pretty Is

Lyfe Jennings

When the lights go out
And the clothes go on
All the money in the air
And "I'm that bitch" is gone
She walks out that door
A little slower than before
Every nigga in the parking lot trying to take her home
But she knows
That ain't what she came here for
She knows
She just trying to stack some dough
She knows
They be thinking she's a hoe
Girl get your money, don't let them turn it in to something ugly
There's no need to hurry
Pretty is what pretty does
You'll always be pretty because you fall but get up
Pretty is what pretty does
You'll always be pretty because your still full of love
He want a lap dance
He want a chance
He want to sell her dream but she ain't buying
She wants real love
Somebody that will never judge her
Somebody who don't want to just - her
Somebody who respects her heart
Because she know
That ain't what she came here for
She knows
She just trying to stack some dough
She knows
They be thinking she's a hoe
Just get your money, don't let them turn it in to something ugly
There's no need to hurry
Pretty is what pretty does
You'll always be pretty because you fall but get up
Pretty is what pretty does
You'll always be pretty because your still full of love
Ok, hair extensions and half spilts don't
make you pretty
Something that comes from within and not on some man
She be up there with the stars
Shinning bright, like a diamond
So inspiring
Pretty is what pretty is what pretty does
You'll always be pretty because you fall but get up
Pretty is what pretty does

You'll always be pretty because you fall but get up
Pretty is what pretty does
You'll always be pretty because you fall but get up
Pretty is what pretty does
You'll always be pretty because you know how to love
