

Triggerman

Alice Cooper

I ain't got a name
Don't got a face
No fingerprints
Or D.N.A.I ain't got no eyes
Don't got a tongue
But I know what's going on
I'm deaf and dumbI'm pure non-enity
Don't even look for me
I watch you when you sleep
I am the triggerman
I am the underhand
I'll keep you on your knees
I am the brain police
I am the triggerman
I am the underhand
I'm full of dirty tricks
I'm twice as smart
And certainly twice as sickI'm always out of sight
A shadow in the mist
I don't need an alibi
Cuz, I dont existI'm pure non-enity
Don't even look for me
I watch you when you sleep
I am the triggerman
I am the underhand
I'll keep you on your knees
I am the brain police
I am the triggerman
I am the underhand
I'm full of dirty tricks
I'm twice as smart
And certainly twice as sickHe's sick, he's sick, he's really, really sick
He's sick, he's sick, he's really, really sick
He's really, really sick, he's sick, he's sick
He's really, really sickI'm pure non-enity
Don't even look for me
I watch you when you sleepI am the triggerman
I am the underhand
I'll keep you on your knees
I am the brain police
I am the triggerman
I am the underhand

I'm full of dirty tricks
I'm twice as smart
And certainly twice as sick
He's sick, he's sick, he's really, really sick
He's sick, he's sick, he's really, really sick
He's sick, he's sick, he's really, really sick
He's sick, he's really, really sick
He's sick!
