

# Disfigured

## Rag'n'Bone Man

I can't give up the ghost  
or cut the rope  
that talks you down I you walk in comatose  
Obliges the cold  
follow the crowd We'll long live all those lifes  
You tell yourselves  
You will be allright  
But There's no kiss goodbye  
Only the end  
Only the night I pitched in like you did  
selflessly I thought you'd spare the time  
The ones I loved the most  
Disfigured it all  
the beautiful life We'll all live all those lifes  
You tell yourselves  
You will be allright  
But There's no kiss goodbye  
Only the end  
Only the night It's a cold way to go  
to the hollow below
