## Anathema

I found you  
In the dark  
I found you  
In the dark Don't leave me  
Here  
Don't leave me Staring at the sun  
A love so strong it hurts  
Staring at the sun  
A love so strong it hurts  
I dreamed of you  
In the dark  
You spoke to me  
From afar  
What you mean to me  
Is clear  
And I'll always be near I found you  
In the dark  
I found you  
In the dark Don't leave me  
Here  
Don't leave me Staring at the sun  
A love so strong it hurts  
Staring at the sun  
A love so strong it hurts  
I look into your eyes  
See my life defined  
Look into your eyes  
See your heart in mine
