

# Cold Cold Cold

## Cage the Elephant

Doctor look into my eyes  
I've been breathing air but there's no sign of life  
Doctor the problem's in my chest  
My heart feels cold as ice but it's anybody's guess Doctor can you help me cause I don't feel right  
Better make it fast before I change my mind  
Doctor can you help me cause I don't feel right  
Better make it fast before I change my mind Well it's cold, cold, cold, cold inside  
Darker in the day than the dead of night  
Cold, cold, cold, cold inside  
Doctor can you help me cause something don't feel right  
Something don't feel right  
Sweet nurse don't look at me that way  
I've seen those eyes before I can tell you want to play  
Counselor give me some advice  
Tell me how hard will I fall if I live a double life Doctor can you help me cause I don't feel right  
Better make it fast before I change my mind  
Doctor can you help me cause I don't feel right  
Better make it fast because there ain't much time Well it's cold, cold, cold, cold inside  
Darker in the day than the dead of night  
Cold, cold, cold, cold inside  
Doctor can you help me cause something don't feel right  
Something don't feel right  
Something just ain't right And as the darkness falls it fills up both my eyes  
My life before me like a flash in the night  
With my arms open wide  
Well it's cold, cold, cold, cold inside  
Cold, cold, cold, cold inside  
Cold, cold, cold, cold inside  
Doctor can you help me cause something don't feel right  
Something don't feel right  
Something just ain't right
