

# Oxygen

## New Found Glory

Constantly connected to the total unexpected.  
I'm a con, a stealer of hearts.  
I only keep this close eye, to keep you on your toes.  
I'll take a glance while you sleep at night.  
While I climb under your nose, so don't leave me. Don't leave, don't leave me here.  
I can't breathe without you.  
Don't leave, don't leave me here.  
I don't wanna be without you.  
I don't wanna live without you.  
I don't wanna breathe without you.  
You're my oxygen.  
It's hard to get rejected, by the one you most expected to be by your side.  
At first hopping you should run and hide.  
But I don't think you're to blame, I've kept you on your toes.  
I dream of you while I sleep at night, so nobody will know.  
So don't leave me. Don't leave, don't leave me here.  
I can't breathe without you.  
Don't leave, don't leave me here.  
I don't wanna be without you.  
I don't wanna live without you.  
I don't wanna breathe without you.  
You're my oxygen. Oxygen.  
With me is where you belong, right with me is where you belong.  
Right here, right here, don't leave me.  
Don't leave, don't leave me here.  
I can't breathe without you.  
Don't leave, don't leave me.  
Cause I can't live without you so,  
Don't leave, don't leave me here.  
I can't breathe without you.  
Don't leave, don't leave me.  
I don't wanna breathe without you.  
You're my oxygen.  
I don't wanna breathe without you.  
You're my oxygen.  
Oxygen, oxygen, oxygen.
