

Take Her

Common Kings

Every girl i ever met she wants to go
Wants to go
Every girl i ever seen she wants to know
Wants to know
Where they do their dance
Where they find romance, pure white sand on the beach
Where they uo all night all the girls look nice everyone raise to the beat
Yeah
Beautiful girl, the way you look right now take you all around the world
Beautiful girl, tell me where you wanna go
She loves palm trees, take her to the islands
She loves sunshine, take her to the islands
She loves bomb waves, take her to the islands
She lives reggae, take her to the islands
Take her to be islanda
Wooah woah girl
Take her to the islands
Wooah woah girl
Building castles in the sand they wash away, wash away.
And im wading in your water till i catch your wave
Where they do their dance
Where they find romance, pure white sand on the beach
Where they up all night, all the girls lool nice
Everyone raise to the beat
