

What Can You Tell Me

Chuck Prophet

I lost control on the Miracle Mile
She had big hair and an innocent smile
What can you tell me
What can you tell me
They say the heart is a wheel
She made my heart a meal
What can you tell me
What can you tell me
She threw our future away
the night he jumped out of the cake
What can you tell me
What can you tell me
Like a kid on a jungle gym
I watched her climb all over him
What can you tell me
What can you tell me
I read it in the paper
I saw your picture too
They dragged Jerome right out of bed
He swore it all was true
I been to the bottom and climbed out again
Getting postcards from people I've never met
What can you tell me
What can you tell me
She locked all the doors and I couldn't get out
The preacher was preaching without any mouth
What can you tell me
What can you tell me
Cupid, play your game
Don't even bother to aim
What can you tell me
What can you tell me
