

# Fire It Up

## Disturbed

When I need to spark a bit  
Of inspiration  
And the melody  
Feels like it's trapped inside All I need is a little bit  
Of illumination  
So the rhythm can  
No longer run and hide When I take a puff  
From the leaves of the devil  
And it carries me  
On to the other side Fire it up  
I like to fire it up  
And it feels so right  
Fire it up  
'Cause when I fire it up  
I feel like serenity  
(Oh, I feel like serenity)  
Is mine When I need a little bit of relaxation  
My medicine isn't too hard to find When I'm looking for  
A bit of rejuvenation  
I only partake of the finest kind And then the mystery  
Begins to unravel  
And it helps me break  
Through to the other side Fire it up  
I like to fire it up  
And it feels so right  
Fire it up  
'Cause when I fire it up  
I feel like serenity  
(Oh, I feel like serenity)  
Is mine Fire it up!  
Fire it up! Fire it up  
Fire it up  
I like to fire it up  
And it feels so right  
Fire it up  
'Cause when I fire it up  
I feel like serenity  
(Oh, I feel like serenity)  
Is mine!
