

# Good Guys Get Left Behind

## Hopsin

I know I don't usually make love songs, but there's a few  
Special girls who kind of changed my perspective on everything  
And I feel like every guy comes to that point in his life  
Where he changes from a boy into a man  
So yo, this one is strictly for the ladies, only  
See when I met your stupid ass up at the mall on  
accident

I thought you was the baddest chick I ever seen but that was so inaccurate  
You stole my heart like you had done some magic trick  
Your essence was so fabulous you also had a sexy look and rack of tits  
I only had intentions to respect your ass and that was it  
I took you for a walk under the moon, we joked and laughed a bit  
The chemistry was there, right where we met I had to act on it  
At that moment I knew you was the girlfriend that I had to get  
What happened bitch? I swear you had me mad sprung  
Our first time hanging I could've did more than I had done  
But I didn't because I was nervous, in my heart, you had reserved a place  
So sexing you just wasn't on my mind cause you were worth the wait  
Shit got to a point where you started cancelling dates we made  
Gave me crazy rage, you had me thinking you hate me, great  
You vanished with no signs and I didn't even know why  
'Til I found out you had a fucking boyfriend this whole time  
Why couldn't you just tell me?

You had me buying plane tickets to go see your stupid ass  
Then you cancelled on me at the last minute talking about you busy  
Bitch, I'm busier than you and I still make time for your bitch ass  
Fuck you! I should've fucked you when I had the chance to (the chance to)  
Now I'm sittin' alone in my house and I'm wishin' you'd call me right now  
Baby, perhaps I should have been less nicer than I was to you  
Cause this seems like all the good girls go for bad guys  
And good guys get left behind

I swear I'm sick of this, bein' stuck in predicaments  
Gettin' the shitty end of the stick and it's never different  
Hours spent on the phone as I'm listenin' to your jibberish  
Blah-blah-blah your mind was scrambled I tried to configure it  
I'm not one you should move past, these player guys, you choose that  
To me, you're worth a lot more than what they had valued you as  
Only reason they hollered was because you got a cute ass  
They just want you for sex and then they move on to a new task  
Your actions show your true class, I think you're moving too fast  
Datin' these strangers can be dangerous, they rarely do last  
But you just too blinded to see, just like a disease  
The guy that you been lookin' for is more than likely me

But now I'm on some "fuck you" type shit  
 Your mind is so indecisive, bitch, cry  
 I'll no longer be ya tissue you can wipe with  
 You just triflin', you just screw so much  
 I'm thinkin' that you like it, my prediction on  
 Your future is always right, I must be psychic, damn  
 See, I ain't even tryna affiliate myself with  
 stupid  
 People like you anymore, it's the same damn story with  
 You every single time, don't be callin' me talkin 'bout  
 You fucked up, bitch, fuck you!  
 I should've fucked you when I had the chance to (the chance to)  
 Now I'm sittin' alone in my house and I'm wishin' you'd call me right now  
 Baby, perhaps I should have been less nicer than I was to you  
 Cause this seems like all the good girls go for bad guys  
 And good guys get left behind  
 That's just the way that the story goes  
 These damn bitches ain't nothing but clueless, horny hoes  
 They'll fill ya life up with drama like it's the Maury show  
 She'll turn her back on you even though she had sworn she won't  
 I never felt this sore before, here's what you do to be fair  
 You get a girl, fuck her while the opportunity is there, cause if you don't  
 Some other nigga will, best believe this shit is real and  
 When you find out what she's been doin' you'll fall and get the chills  
 Love is just a battlefield, some bitches be gettin' killed  
 Niggas too, it's the truth, better run and get your shield  
 Hoes will make ya think they at home waitin' for ya, sittin' still  
 But really, she's out with that guy you don't like and she's gettin' drilled  
 My heart is forever swollen, why'd I let you ever hold it?  
 Girl, you was my Bella and I thought I was your Edward Cullen  
 There's no rules to hop onto your boat, you'll take whatever floats it  
 Bitch, you turned my heart into a cave no one should ever go in  
 I can't stand these stupid bitches  
 Man, I just wanna take my hand  
 And put it around their fucking neck  
 And choke the fuck outta them! Ooh!  
 Fuck 'em all!  
 I should've fucked you when I had the chance to (the chance to)  
 Now I'm sittin' alone in my house and I'm wishin' you'd call me right now  
 Baby, perhaps I should have been less nicer than I was to you  
 Cause this seems like all the good girls go for bad guys  
 And good guys get left behind  
 I should've fucked you when I had the chance to (the chance to)  
 Now I'm sittin' alone in my house and I'm wishin' you'd call me right now  
 Baby, perhaps I should have been less nicer than I was to you  
 Cause this seems like all the good girls go for bad guys  
 And good guys get left behind
