

# Shelf Life

## Dance Gavin Dance

My mistake  
Thought this year would bring something different  
And I'm the same old story  
Haunted memories All the way (all the way)  
All the way from the warmth of your hands  
You wouldn't even let me hold them Another one  
So over them  
Kill me twice  
Finalize my shelf life Now you're alone  
Do you feel any better?  
Left to commence  
And a heavy head  
(Leave me)  
The brightest of wizards I bit her and love came on gushing out  
Guzzled some lizards my skin turned to scale. Felt it wrap around  
Payments get vicious. Account gettin' roasted and flayed  
I started a party, and partied, and partied, and flew away Please don't feel like  
I'm attacking you  
I did some things too  
And pushed you away It needs to  
The feelings of the past will surely fade through  
To live another day Looks like I was someone I could barely recognize  
Hope it's not too late to scatter this disguise My mistake  
Thought this year would bring something different  
And I'm the same old story  
Haunted memories  
All the way (all the way)  
All the way from the warmth of your hands  
You wouldn't even let me hold them (Leave me)  
The brightest of wizards I bit her and love came on gushing out  
Guzzled some lizards my skin turned to scale. Felt it wrap around  
Payments get vicious. Account gettin' roasted and flayed  
I started a party, and partied, and partied, and flew away
