

# First Time

Justin Tyler

Every time I look out the window I  
I fall in love for the first time  
When I saw you, I saw you passing by  
And every time I think of the dress you wore  
Running in to the corner store  
When it started, it started to pour  
Cuz I don't even know if you're around  
I don't even know if you've left town  
Driving your truck past my apartment  
I can still hear the sounds  
Of your wheels they're spinning  
Your engine's roaring  
My heart keeps rolling around  
All I have to remember  
From that day in a September  
Tread marks on the ground  
All I have to  
Hold on to  
Was the look in your eyes  
From that day in September  
I'll always remember how  
I fell in love for the first time  
I asked the operator if she knew your name  
She said honey are you insane  
Then we laughed and we laughed off the shame  
All my friends are telling me I'm crazy  
That I'm living in a fantasy  
But it makes me, it makes me believe  
Cuz I don't even know if you're around  
I don't even know if you've left town  
Driving your truck past my apartment  
I can still hear the sounds  
Of your wheels they're spinning  
Your engine's roaring  
My heart keeps rolling around  
All I have to remember  
From that day in a September  
Tread marks on the ground  
All I have to  
Hold on to  
Was the look in your eyes  
From that day in September  
I'll always remember how  
I fell in love for the first time  
Never gonna stop til I find you  
I'll do anything I've gotta do  
Even if it takes everything

Ain't a thing I wouldn't trade away  
For a chance just to see your faceCuz my wheels keep spinning  
My engine's roaring  
My heart's still rolling around  
All I have to remember from that day in September  
Is watching you leave town  
All I have to  
Hold on to  
Was the look in your eyes  
From that day in September  
I'll always remember how  
I fell in love for the first timeFell in love with you baby fell in love with you  
I fell in love with you baby yeah
