

# Great Escape

Pat Monahan

Great Escape Thought I could  
But I just can't wait  
Started planning  
For the great escape  
Where I'd live and  
What I'd leave behind Made a list of things  
I'd have to take  
The things that make me feel like hell  
For heavens sake  
Who I'd love and who would tow the line  
And I need you  
Everybody needs someone like you  
If you need me too  
You would be the only thing that I'd take  
On my great escape I float through this town like a cosmonaut  
Reminding me of all the things I haven't got  
Like time and space, a smile on my face and you And I need you  
Everybody needs someone like you  
If you need me too  
You would be the only thing that I'd take Maybe I'll find that my destination  
Is somewhere I already know?  
And your were as far as I ever had to go  
And I need you  
Thought I could, but I just can't wait  
Everybody needs someone like you  
Started planning for me great escape  
If you need me to  
Who I love and who I'd leave behind  
You would be the only thing that I'd take with me  
Who I'd leave behind  
I need you  
Who I'd leave behind  
Everybody needs someone like you  
Who I'd leave behind  
If you need me to  
You would be the only thing that I take  
On my great escape by Ellba Larysa
