

# Pick Me Up

## Mansionair

As soon as I arrive i forget why I even came  
And I can feel the pulse take control but it's all still the same  
See I get so pushed back when I ran laps inside of my head  
Go out and put headphones on and wish you were here  
So, pick me up, until now i've been out  
of my head  
Pick me up where I'm found get me outta my head oh oh oh woah  
Pick me up, turn around  
So write your name on the palm of my hand, let's start again  
with the sun in my eyes I can trace your outline  
So, pick me up, until now i've been out of my  
head  
Pick me up where I'm found get me outta my head oh oh oh woah  
Pick me up, until now i've been out of my head  
So pick me up soon enough we'll forget everything  
Pick me up, turn around  
Why can't I read your mind like you do mine all of the time  
Pick me up, until now i've been out of my head  
Pick me up where I'm found get me outta my head  
Oh pick me up, until now i've been out of my head  
With the sun in my eyes I can trace your outline  
So pick me up, turn around
