

# When You Love Somebody

Leela James

What is a woman  
To do with a man  
Who treats her unkindly  
When she's down, all she canI cried so many nights  
How we fuss and fight  
The make ups and the break ups  
I loved you and only you  
The things you doWhen you love somebody  
When you love somebody  
(things you do, ooh)I gave you my lovin'  
With no questions asked  
Tears on my pillow  
From all your disrespect  
I didn't care about your past  
I only wanted to make us last  
And oooohhh  
I loved you and only you  
The things you doWhen you love somebody  
Oh love, yeah, um  
When you love somebody  
I loved you baby  
Nooo  
When you love somebody  
When you love somebody  
The things you do  
For love  
ooh  
The things that you do yeah  
Who knows what tomorrow may bring me  
All I know is it is what it is  
And why, do I look for clues, y'all?  
When I don't have to question youWhen you love somebody  
When you love somebody  
Y'all hear me  
The things you do x 4  
All in the name of love  
(when you love somebody)  
(oh you make me wanna...)  
All in the name of love  
In the name of love  
All the things you do for love  
(somebody, somebody, somebody, somebody)

Love love love x 2  
It's in the name of love  
The things you do for love  
Love, love, love  
(y'all hear me when I sing it to you...  
love somebody, love somebody, love somebody)
