

Cool World

Chuuwee

Yo, yo um what's going on? It's your man (?) and um I just wanna give a real cool shoutout to all my peoples living in a cool world you know what I mean and um sometimes shit can get a little phony out there but so long as you remember to keep your real you should be all good

Check it out! Yo, Smell a light aroma of weak weed. Cheap grills

These niggas wanna be Meek Mill

Heat spills

Hit 'em bellow 40 degree chills

I never said I was the realest only the (?)

But when I question who is realer noone comes to mind and that is when I come to (?)

I inhale (?) and think deep and hope a show comes up gotta make (?) me

I don't pretend I never been a G

But I be with the shit focus my energy

Oh boy making the semi squeeze

Be one of them writing ballots for the penitentiary

If you went out (?) natural born enemies

The cool world always freezin cold instead of the (?) fake I rather just be alone

Sometimes I would rather be freakin gone

Somewhere undercover with lovers that look like (?)

I keep it real no need to fake the funk

What you want?

Keep it real no need to fake the funk

What you want

Is a very cool world outside goin on

Keep it real no need to fake the funk We gets me (?) from the thugs no love so we show up to the club do I said and do I drugs. We gets me (?) from the thugs no love so we show up to the

club do I said and do I drugs See everything was black and white cell-shaded

Livin in a colorful world can leave you (?)

But my style black as night ain't never faided

And it's been a long way down but yo we made it

I wanna give blessings and love to those who waited

They said that I was dead I'm back reaninted

This story doesn't end that soon (?) on a playlist to see the way that Chris made everyone love

Rayman

I'm walkin in a cartoon world, cell-shaded

Everything is overly drawn with no relation

Perception is the key to this game you gotta fake it

But hope they never find your truth, then try to steak it

Better learn to protect yourself you be mistaken

They kickin down your door and bringin the AK in

Gotta find some way out I can't take it

All I do is count my blessings and keep praying

I keep it real no need to fake the funk

What you want?
Keep it real no need to fake the funk
What you want
Is a very cool world outside goin on
Keep it real no need to fake the funk Suggest an improvement or correction to earn IQ
