

Do What You Want

OK Go

So you were born in an electrical storm
took a bite out the sun
saw your future in a machine built for two
now your rays, make me kind of go crazy, shocked and awe and amaze me
just a ticker tape parade and me
but something was wrong
till you tap danced on the air in the night screaming at the top of your lungs, you said
Come on, come on
Do what you want
What could go wrong?
Oh come on come on come on, come on, do what you want
Oh come on come on
What could go wrong? Do do do do what you want
Come on

Me, I was raised amin the trickle down days I woke up numb in the haze and saw my future in a
machine built for two but the light gave me some kind of fright, how did wrong get so right,
and lead me stumbling through the dark of night,
Oh, something was wrong, but you tap danced on the air in the night screaming at the top of
your lungs, you said
Come on, come on
Do what you want
What could go wrong?
Oh come on come on come on, come on, do what you want
Oh come on come on
What could go wrong? Do do do do what you want
Come on
D-d-d-do what you want!
D-d-d-do what you want!
Hey!

C'mon,
c'mon, c'mon... (keeps on repeating)
D-d-d-do what you want, yeah!
D-d-d-do what you want, yeah!
Do what you want!
Do what you want!
Do what you want!
D-do what you want!
D-do what you want!
D-do what you want!
D-do what you want!
D-c'mon!
C'mon!

C'mon!
C'mon!
C'mon!
D-d-d-d-d-d-do what you want!

.
Yeah!
