

Fire's in the Sky

Paul Balancio

Fires in the sky
Babies wanna cry
Once the rain comes by it shines
Eagles fly in air
People wanna stare
Cause when a tree dries up
Time flies If the sun arrives we'll go away
I'm here to stay beside you
Forever I'm in love
In love
Forever I'm to love
Fires in the sky
Thunder crashes high
All the clouds start to unwind
Light is what unfair
Darkness never shares
Turn the switch on cause I know your there You got this
You got this
You got this
You got this
I'm with you
I'm with you
I'm with you
I'm with you
Listen to your heart
Why we'd ever start
Open up your heart
So even
If the sun arrives we'll go away
Im here to stay beside you
Forever I'm in love
In love
Forever I'm to love If the sun arrives we'll go away
Im here to stay beside you
Forever I'm in love
In love
Forever I'm to love If the sun doesn't shine, then you know where to find, it is all in your mind,
time flies
