

Shattered

Pantera

It's storming broken glass, corpses left in piles
Ungracious bludgeonmet that breaks the earth for miles
Nothing can stop it, the day has come, from below it's catastrophic Freezing, there's no healing
families are dying This world is shattered... all shattered Life crushing turbulence, this wrath
can't be denied
Wishing you could help your friends, standing where they died
Echoes haunting, a hollow planet, lacerations, dissected nation Freezing, there's no healing
families are dying
This world is shattered... all shattered
