

I Kinda Like It

Julie Bergan

They talk like that
Where you come from
Show me the map
Need direction
I'm down with that
Yeah it's welcomed
I kinda like it, I,
I, kinda like it You got that thing
Different flavor
I gotta say it's working in your favor
Wanna hang
Now or later
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it Ain't had a drink
But I'm faded
Not usually this easily persuaded
You in my head
Got me wasted
I kinda like it, I
I, kinda like it
When our colors collide
It's a beautiful night
So let the stars just burn out
We are so lit now
And I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it Know it's dark but it's clear now we
Vibin'

See your heart and it's shining so
Vibrant
Know it's dark but it's clear now we
Vibin'
See your heart and it's shining so
Vibin'
Vibin'I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
I kinda like it, I
I, kinda like it
