

Salt

Alex G

into my big cloud
im flying all the time
im happy
into your bedroom
im watching your backside
im trying
out through my window
im deeper all the time did you hear what i said?
ive got salt in my head
don't make me hurt you
im watching you from here
im happy
eyeing and tapping
a wrecking ball of fear
im lying
don't take me with you
im happy where i am
today i washed my hands
i want to be alone
i want to fry
