

# Moonrise Kingdom

## Angel Haze

verse 1: I was born all alone, you the same babe  
I was born all alone all alone  
Naked, we were as we came, babe.  
Naked we came, we would go on  
Oh no, im not running in vain, babe.  
Oh no, I ain't running too far  
Its just some beasts from the wild  
Can't be tamed babe...  
You know, you know who we are  
They dont know nothing  
Nothing about us  
Nothing bout love or the fears that surround us  
But you row the boat that im in  
You know we both sink or swim  
Baby, we're drowning, wilting like flowers  
Chasing the sun for the love that forgot us  
And you know im breaking again  
You know im caving again Baby, its a wild world for you.  
Moonrise Kingdom only made for two  
In these trees there's no escaping truth  
They think they're saving you  
They think they're saving you.  
YOU GOTTA RUN!  
Or theyll catch us and stop us from growing  
You gotta run!  
Hold my love in your heart and keep going  
Can't get they hands on it in the kingdom x4  
(Can't get nowhere near my heart) x 2 We were young smothered tight in the wolf's jaw  
So lost in love, we're running out  
We left home, we ran off to the woods aw  
The beasts, the beasts, they scarfed us down  
We prayed hard to a God that felt so far  
We call louder now to no response  
Started fires because it got so dark.  
Oh you said, we'd never smolder out They dont know nothing  
Nothing about us  
Nothing bout love or the fears that surround us  
But you row the boat that im in  
You know we both sink or swim  
Baby, we're drowning, wilting like flowers  
Chasing the sun for the love that forgot us  
And you know im breaking again

You know im caving againBaby, its a wild world for you.  
Moonrise Kingdom only made for two  
In these trees there's no escaping truth  
They think they're saving you.  
They think they're saving youYOU GOTTA RUN!  
Or theyll catch us and stop us from growing  
You gotta run!  
Hold my love in your heart and keep going  
You gotta run!  
Can't get they hands on it in the kingdom x4  
(Can't get nowhere near my heart) x 2I HOPE YOU LEARN TO FALL IN LOVE AGAIN  
I HOPE YOU FIND A LOVE IN YOUR BEST FRIEND  
JUST KNOW MY HEART IS YOURS UNTIL ITS END  
I WANT YOU NOW FOREVER ILL REPENT  
BABY, ITS A WILD WORLD FOR YOU.
