

# I've Got Friends

## Manchester Orchestra

Dirty on the ground is white on me  
I got another one to tell you and another one to make you believe  
Pity on the grass, I tried to be  
The one you needed when I told you that you wanted something bigger than me I've got friends  
in all the right places  
I know what they want and I know they don't want me to stay  
I said that I've got friends in all the right places  
I know what they want and I know they don't want me to stay 'Cause you and I will ride  
But when I need you  
I need it quickly  
In case you never know  
I can't play where I'm not supposed to, anyway Dirty on the ground is what I see  
I need another reason why I need another reason, tell me to breathe  
The dirtier the sound, the best I breathe  
I tried to do it all for you, it didn't do anything for me 'Cause I've got friends in all the right  
places  
I know what they want and I know they don't want me to stay  
I've got friends in all the right places  
I know what they want and I know they don't want me to stay And you and I will find  
That when I need you  
I need it quickly  
In fact, you'll never know  
I've got friends in all the right places  
I know what they want and I know they don't want me to stay  
I said that I've got friends in all the right places  
I know what they want and I know they don't want me to stay  
I said that I've got friends in all the right places  
I know what they want and I know they don't want me to stay, to stay  
I've got friends in all the right places  
I know what they want and I know they don't want me to stay, to stay
