

# Nobody Wins

Brian Fallon

Skin and bones you never did come home  
Crashing on my heart through the telephone  
I remember the tall grass waving  
In past lives, old bones I must have lived a lifetime without you  
You must have ended up somebody's angel  
I remember you loving the radio  
New waves in old stones Hey, hey little tommy gun  
I guess we're never gonna end up the lucky ones  
Hope I'll never see you again  
Have a round on me love, hallelujah  
Nobody wins  
The Queen is gone she died from a sad song  
I lost of myself pleasing everyone  
I had to learn how to begin again  
It's alright, move on Hey, hey little tommy gun  
I guess we're never gonna end up the lucky ones  
Hope I'll never see you again  
Have a round on me love, hallelujah  
Nobody wins Hallelujah  
Well have a round on me friend  
If I never see you again  
Hey, hey little tommy gun  
I guess we're never gonna end up the lucky ones  
Hope I'll never see you again  
Have a round on me love, hallelujah  
Hey, hey pretty baby  
I still remember you driving me crazy  
Hope I'll never see you again  
Have a round on me love, hallelujah  
Nobody wins  
And nobody wins  
You can blame it on the wind
