

I Was In Heaven

Chelsea Cutler

I dreamt you loved me still
Why did it feel so real?
I can't forget it, ah I can't forget it, ah
I dreamt you said my name
You looked at me the same
I was in heaven
I was in heaven You don't see what you saw in me
When you said you would never leave
And I swore that I couldn't breathe
When you walked away from me
And I'm so scared to watch you grow
Without my hand for you to hold
'Cause I swore I would be your soul
Never let you walk alone
Even when you're hurtin' me
I'll still be your person, baby I dreamt you took me on
Your voice felt way too close
I could still hear it
I could still hear it
And I dreamt you touched my hand
My stomach dropped again
I could still feel it
I can still feel it You don't see what you saw in me
When you said you would never leave
And I swore that I couldn't breathe
When you walked away from me
And I'm so scared to watch you grow
Without my hand for you to hold
'Cause I swore I would be your soul
Never let you walk alone
Even when you're hurtin' me
I'll still be your person baby Every time I pray
I swear I hear the voice the say
You'll come back
You'll come back home
I'm so scared to leave the bed
Where you were next to me
I can't let, I can't let go But you don't see what you saw in me
When you said you would never leave
And I swore that I couldn't breathe
When you walked away from me
And I'm so scared to watch you grow

Without my hand for you to hold
'Cause I swore I would be your soul
Never let you walk alone Even when you're hurtin' me
I'll still be your person, baby
