

HiLO

ohGr

When all is said and done before and in the hollow
Set off the nature's hollow cost
From wince and when the day is never hollow
I feel as if I've gotten off Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? And left upon the trip you had to follow
A wasted path so cluttered up
To realize as if it somehow mattered
Hope you feel you got what it's worth
Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine?
Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Can you take mine?
Care to take mine? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low? Are you high?
Are you low?
