

Run Away

Real McCoy

Run away
run away
run away and save your life
run away
run away
run away if you want to survive
run away
run away
run away and save your life
run away
run away
run away if you want to survive
Money, sex, in full control
a generation without soul
perfect people in a perfect world
behind closed doors all in control
life in a world of luxury
cold cash money mentality
you gotta keep the faith
you gotta keep the faith you better keep the faith and run away Run away
run away
run away and save your life
run away
run away
run away if you want to survive
It's time to break free
oh oh oh oh
run away
oh oh oh oh
you better break free
oh oh oh oh
run away
oh oh oh oh Money, sex, in full control
big brother is watching you
unlock your brain and save your soul
no more limits, no more curfew
life in the perfect system
take a stand and fight for freedom keep the faith
you gotta keep the faith
you better keep the faith and run away Run away
run away
run away and save your life

run away
run away
run away if you want to survive
Run away
run awayrun away and save your life
run away
run away
run away if you want to surviveRun away
run away
run away and save your life
run away
run away
run away if you want to survive
Run away
