

Till There's Nothing Left

Cam

La, la, la, la, la
La, la, la, la, la
La, la, la, la, laLa, la, la, la, laI wanna steal every breath of fire (la, la, la, la, la)
From every star in the Southern sky (la, la, la, la, la)
I wanna lay down in the dark (la, la, la, la, la)
And take a match right to your heart (la, la, la, la, la)I wanna hide with you in the rain(la, la, la,
la, la)
In the eye of a hurricane(la, la, la, la, la)
I wanna call it for what it is(la, la, la, la, la)
And give you everything I've got to give
Till there's nothing left
Till there's nothing left
Me and you in the backseat
Drivin' me crazy
Killin' me babyTill there's nothing left
Till there's nothing left
With the windows up
Spendin' all my love
Prayin' God don't save meTill there's nothing leftKeep me locked up in your eyes(la, la, la, la,
la)
Before the sun pushes out the night(la, la, la, la, la)
Before we're whispers in the air(la, la, la, la, la)
Come on and take me without a care(la, la, la, la, la)I wanna know what it feels like
To disappear into you and
Never have to say goodbye
I wanna call love what it is
And give you everything I've got to giveTill there's nothing left
Till there's nothing left
Me and you in the backseat
Drivin' me crazy
Killin' me babyTill there's nothing left
Till there's nothing left
With the windows up
Spendin' all my love
Prayin' God don't save meDon't wanna go yet, Romeo and Juliet
Sunrise feelin' like a final sunset
Oo baby drivin' me crazy
Windows up, prayin' God don't save meDon't wanna go yet, Romeo and Juliet
Sunrise feelin' like a final sunset
Oo baby drivin' me crazy
Windows up, Prayin' God don't save meTill there's nothing left
Till there's nothing left

Me and you in the backseat
Drivin' me crazy
Killin' me baby Till there's nothing left (till there's nothing left)
Till there's nothing left
With the windows up
Spendin' all my love
Prayin' God don't save me Till there's nothing left
