## The Paper Kites

Run, run, don't trail behind keep moving  
The beasts wont stop till we're dead  
All the scrapes on our knees  
Will tell you where we've been, where we have bled. Oh we play,  
In autumn days Won't lay down our heads till the day is won  
Won't stop running till we reach the sun  
Chasing all the things that are keeping us young  
We won't stop running till we reach the sun  
Oh we're building a home  
With the mud and the stones and the branches we bind  
We're all just searching for something  
Bigger than we're all able to find Oh we play,  
In autumn days Won't lay down our heads till the day is won  
Won't stop running till we reach the sun  
Chasing all the things that are keeping us young  
We won't stop running till we reach the sun We are all creatures of the sun  
We're all children of the rain  
We're just chasin' what we can  
Ahh, ahh  
Won't lay down our heads till the day is won  
Won't stop running till we reach the sun  
Chasing all the things that are keeping us young  
We won't stop running till we reach the sun All the scrapes on our knees  
Will tell you where we've been, where we have bled
