

# Getaway (feat. Angel Taylor)

## Tritonal

Doesn't take much to feel the rush  
With nothing but your eyes on me  
How 'bout we do just like we do  
Two crazy fools just breaking free  
No, it don't matter what we've been told  
I can see the skies are gold  
Yeah, it's just you and me and open road, let's go  
I don't see no red lights, just a wild ride  
You're my getaway, you're my getaway  
Tonight, I'm gonna be alright  
You're my getaway, you're my getaway tonight  
You're my getaway, you're my getaway tonight  
You're my getaway tonight  
You're my getaway, Tonight  
It's getting dark, let's light a spark  
Ignite our hearts and burn away  
This is our time, it's do or die  
Come on, let's rise for heaven's sake  
Oh, it don't matter what we've been told  
I can see the skies are gold  
Yeah, it's just you and me and open road, let's go  
I don't see no red lights, just a wild ride  
You're my getaway, you're my getaway  
Tonight, I'm gonna be alright  
You're my getaway, you're my getaway tonight  
You're my getaway, you're my getaway tonight  
You're my getaway tonight  
You're my getaway  
I don't see no red lights, just a wild ride  
You're my getaway, you're my getaway  
Tonight, I'm gonna be alright  
You're my getaway, you're my getaway tonight  
You're my getaway tonight
