

A Little More Country Than That

[Easton Corbin](#)

Bridge 1:

Imagine a dirt road full of potholes
With a creek bank and some cane poles catchin channel cat
I'm a little more country than that

Bridge 2:
Picture a small town, with an old hound
Layin out front of the courthouse

While the ol men chew the fat I'm a little more country than that
I just want to make sure you know just who your gettin under this old hat
Cause girl I'm just not the kind of two time or play games behind your back
I'm a little more country than that

Bridge 3:

Think of a Hank song, from days gone
With a steel ride, that's so strong, it sends chills up your back I'm a little more country than that

Bridge 4:

If you want to break home in a school zone
With the doors locked and alarms on Girl you way off track
I'm a little more country than that
I just want to make sure you know just who your gettin under this old hat
Cause girl I'm just not the kind of two time or play games behind your back
I'm a little more country than that

Bridge 5:

Yea I'm sure that you've heard those three words from others but they fell flat
But this ring ain't something that I mean to give you and then take back
I'm a little more country than that
I'm a little more country than that (Repeat 2x)
