

Heart Be Still

Deee-Lite

There's a cause for me to pause
cause in our love there is a clause
cause we belong to other hearts

Hold me back

Hold me back

Hold my will

Heart be still

You seem better than candy

My sugar dandy

I've got to stand back from the heat

Hold me back

Hold me back

Hold my will

Heart be still

Heart be still

Where we'll go no one knows

I feel weak when you do speak

It's like a rollercoaster at it's peak

Hold me back

Hold me back

Hold my will

Heart be still

Heart be still

I've got to get back

I've got to get back

I've got to get back on my feet

Just let me say my say

You're a friend I wanna keep

Where we go no one knows

Our unsaid love could be a scream

The finest dream I've ever seen

Your charm grabbed me by the arm

I've got to get back

I've got to get back

I've got to get back on my feet

I've got to get back

I've got to get back

Just let me say my say

You're a friend I wanna keep
