

Slight Return

The Bluetones

Where did you go?
When things went wrong for you?
When the knives came out for you?
Where did you go?
All you needed was a friend,
You just have to ask and then. You don't have to have the solution,
You've got to invest in the problem,
And don't go hoping for a miracle,
All this will fade away,
So I'm coming home, I'm coming home.
What did you learn?
Locked away all on your own,
Chance and your head all blown,
What did you learn?
It was unfortunate,
You missed you chance to find out that. You don't have to have the solution,
You've got to invest in the problem,
And don't go hoping for a miracle,
All this will fade away,
So I'm coming home, I'm coming home.
You don't have to have the solution,
You've got to invest in the problem,
And don't go hoping for a miracle, yeah,
All this will fade away,
So I'm coming home, I'm coming home.
I'm coming home, but just for a short while.
